VISHESH OVERSEAS
INC.

VISHESH OVERSEAS

GLOBAL SPICE
EXPORT CATALOGUE

COMPANY OVERVIEW

Vishesh Overseas Inc. is a merchant exporter established in 1999. We source and coordinate the supply of selected spices from established processing and manufacturing partners, with product specifications, documentation and shipment requirements agreed for each buyer and destination.

VISHESH OVERSEAS INC. — EST. 1999

OUR SPICE PORTFOLIO

A focused portfolio for importers, distributors, food manufacturers, wholesalers and private-label buyers. Final specifications are confirmed lot-by-lot and market-by-market.

Red Chilli · Turmeric · Cumin · Cardamom · Saffron
Whole, cleaned, processed and packed formats available subject to product and buyer requirements.

PRODUCT CATALOGUE

RED CHILLI

Forms: Whole Dried · Flakes · Powder
Common varieties: Teja · Byadgi · Kashmiri
Quality parameters: colour / ASTA value, pungency / SHU, moisture, foreign matter and applicable safety tests.
Specifications are agreed against buyer and destination requirements.

Applications: spice blends, sauces, marinades, snack seasonings and processed foods.
Packing: bulk or customized/private-label formats, subject to order requirements.
Sampling and destination-specific testing can be arranged on request.

PRODUCT CATALOGUE

TURMERIC

Available Forms: Turmeric Fingers · Powder
Key parameters: curcumin content, moisture, colour, foreign matter, microbiological criteria and applicable residue / contaminant limits.
Grades and specifications are confirmed against buyer requirements.

Applications: culinary blends, seasoning, food processing, beverage preparations and ingredient use.
Packing: bulk or private-label formats, subject to product, destination and order requirements.
Pre-shipment specifications can be documented for approval.

PRODUCT CATALOGUE

CUMIN SEEDS & POWDER

Available Forms: Whole · Cleaned · Sortex-Cleaned · Powder
Key parameters: purity, moisture, volatile oil, foreign matter, seed quality and microbiological criteria.
Cleaning and grade specifications are confirmed per buyer order.

Applications: spice blends, seasoning, curry mixes and food processing.
Where required, sampling and testing can cover microbiological, aflatoxin and other destination-specific parameters.

PRODUCT CATALOGUE

CARDA-MOM

Green Cardamom — Whole Pods
Grades can be specified by size, colour and pod condition.
Key parameters: moisture, foreign matter, pod integrity and buyer-specific quality requirements.
Final grade is confirmed against the contracted specification.

Applications: confectionery, masala blends, beverages, bakery and premium culinary use.
Packing: bulk sacks, lined bags, pouches or buyer-approved formats.
MOQ and packing configuration are confirmed per order.

PRODUCT CATALOGUE

SAFFRON
CROCUS SATIVUS

Quality Parameters
Crocin · Picrocrocin · Safranal · Moisture · Extraneous / foreign matter
Testing can be aligned with the applicable ISO saffron specification and buyer requirements.

Form: Whole dried filaments / stigmas.
Applications: premium culinary, confectionery, dairy, beverages and specialty food products.
Packing: airtight, light-protective formats selected according to pack size and destination.
Authenticity and destination-specific documentation can be arranged where required.

Sourcing → Specification Review → Inspection / Sampling → Testing where required → Sorting / Processing → Packing → Pre-Shipment Checks → Documentation → Dispatch

Controls are defined according to the product, contracted specification and destination-market requirements.

QUALITY & COMPLIANCE

PACKAGING SOLUTIONS

Bulk and customized formats may include woven bags, lined bags, cartons, vacuum pouches, jars or other buyer-approved formats, subject to product suitability. Final packing and MOQ are confirmed per order.

Private-label and custom-label programs can be coordinated on request. Artwork, pack size, labelling and documentation are aligned with the buyer and applicable destination requirements.

EXPORT & LOGISTICS

— Commercial terms: FOB / CFR / CIF, as agreed
— Export documentation coordinated against shipment requirements
— Certificate of Origin / phytosanitary documentation where applicable
— Inspection, testing and freight coordination can be arranged

A clear B2B process designed around specification accuracy, commercial clarity and shipment readiness.

HOW WE WORK

BUYER CHECKLIST

- Product & Quality: product name and form, grade, origin preference, colour / ASTA or curcumin target where relevant, moisture, purity, foreign matter, microbiological or contaminant limits, required testing and destination compliance.

- Trade & Logistics: quantity, destination country and port, packaging format, private-label or neutral packing, preferred Incoterm, payment terms, required export documents / certificates and target shipment window.
